// CONTENT AUTHORIZING GUIDE:

// -----

// ADD A ROOM: Insert entry into ROOMS. Fields: name, desc, exits

// (direction->roomId), items (array of item ids), npcs (array),

// shipRoom (bool), shop (bool), planet (string), dangerous (bool).

//

// ADD AN ITEM: Insert entry into ITEMS. Fields: name, desc,

// takeable (bool), type (string), consumable (bool),

// combat_bonus (number), value (number), cost (number).

//

// ADD AN NPC: Insert entry into NPCS. Fields: name, fullName, desc,

// location (roomId). Then add dialogue function in getDialogue().

//

// ADD A QUEST: Add to state.quests in initState(). Then add logic

// in NPC dialogues and command handlers to progress it.

//

// ADD A RANDOM EVENT: Push object to EVENTS array with condition,

// weight, and handler function.

// =====
